

## **IMMEDIATE OPENINGS – PAID INTERNSHIP**

**Job Title:** Aerospace Engineering Intern  
**Location:** Goldsboro, NC  
**Reports To:** Engineering Manager

### **Summary of Position:**

---

We are seeking an Engineering student to fill an Engineering Intern position. While you do not need to have prior job experience, you must have a good GPA and training in common engineering computer programs, such as AutoCAD, Solidworks, and MATLAB. You will learn the responsibilities of a professional engineer under the supervision of our more senior employees.

### **Duties and Responsibilities:**

---

- Incorporate academic knowledge into hands-on work
- Learn the responsibilities of an engineer
- Fulfill administrative duties for the engineering staff

### **Core Competencies:**

---

- Commitment to company values and ethics
- Dependability: personally responsible, completes accurate work in a timely manner
- Motivation: must maintain a positive attitude and strong work energy

### **Qualifications:**

---

- Attending coursework in Mechanical Engineering, Aerospace Engineering, Materials Engineering, or similarly related engineering program from an accredited college/university.
- Strong communication and interpersonal skills, ability to work in a collaborative and inclusive environment
- Understanding and ability to apply basic engineering principles, theories and concepts
- Fundamental understanding of structures, mechanisms and materials
- Desire to work with propulsion, structures, mechanisms, thermal, analysis
- Proficiency in Microsoft Office applications

### **Physical Demands/Work Environment:**

---

The physical demands and work environment are similar to a typical office surrounding and must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
